

Fall Arrest Linostop II

Product information

The safety rope is suitable for roof work and is equipped with an integrated rope grab and energy absorber. Three different lengths to choose from: 10, 15 and 20 m. The safety rope can be used on a flat roof or on a sloping roof, but the fall is stopped only when drop vertically. In other words, a safety rope with a grabber has a fall arrest system. The safety device stops the fall only in a vertical fall or at a maximum angle of 15°.
