

Storage rack for lifting equipments

Product information

The rack is designed for keeping and storing various lifting equipments. The rack is suitable for example for chain slings, hoists, webbing slings and round slings as well. In the rack, the lifting equipments stay organized, clean and dry. A convenient and space-saving solution for storing different kinds of lifting products. The rack is the size of a Euro pallet, so it can be bolted/screwed to the pallet, making it easy to move with the help of e.g. [pallet trucks](#). A horizontal beam with hooks for the middle part of the rack, set of nylon wheels and additional hangers are available as accessories.

The product contains:

- basic frame
- 1 pc base plate
- 2 vertical posts
- 1 horizontal beam
- 12 pcs hook spikes
- mounting accessories
- product code: **RAKSITELINE**

ACCESSORIES:

Additional beam in the middle

- contains 10 hook spikes and mounting accessories
- painted, blue
- product code: **RAKSITELINELP**

Nylon wheel set

- 2 articulated and 2 fixed wheels
- bolt attachment to the feet
- including mounting accessories
- product code: **RAKSITELINEPS**

Hook/loop

The hook and loop fits directly into the rack's fixed hooks and enables e.g. for hanging the hoists. (see the pictures of accessories)

- double wire hook | product code: **KO5005ISO**
- triangle hook | product code: **KOK503**
- webbing loop, EWL 25 cm / width 25 mm | product code: **UNV05005**

Features: Capacity: 500 kg/rack | 20 kg/hook

Material: Steel

Finish: Painted, blue
